Note from USAC case thread:

Michael called, in regards to an appeal for 2016 that is still under review. I spoke with Bailey at TCSB, and she looked over the appeal and the case. Bailey advised me that someone had given Michael the wrong information on where to send his appeal. The appeal was supposed to be sent to The FCC not USAC, and was not told that. So I told Michael that it is under review, because he was given wrong information and that the appeal he had sent into USAC was supposed to be sent to The FCC. Michael needs some navigation help on filing with The FCC, and asked if I could send him the information and steps on how to file. So I'm sending him the information that now externally.

Appeal Narrative:

After initially submitted SPIN changes between July 2017 and September 2017 we a just learning the changes were approved on December 27, 2017 [during holiday break] and our Invoice deadline was January 2, 2018]. The school remained closed a few additional days due to weather. We resumed business on January 5, 2018. We are submitting this request to USAC to provide additional time to submit the invoices.

Thank you,

Michael Brock
